

SVHS Review – this is NOT a comprehensive list, but a good starting place!

- Systems of equations
- Factoring binomials and trinomials
- Inequalities
 - Graphing systems of inequalities
- Absolute value equations
 - Solving both positive and negative
- Order of operations
- Write equations from word problems
- Exponent rules
- Simplify with radicals**
- Solving equations with radicals
- Function notation
 - $F(x) = \underline{\hspace{2cm}}$ find $f(-2)$
